SUMMARY

Certified Microsoft Azure Developer Associate with over 10 years of experience in enterprise software development, technical training, and mentorship. Proficient in building and deploying scalable cross-platform apps, and AI-powered automations using Python, PHP, C#, TypeScript, and Postgres. Proven track record of leadership and Agile workflows.

EDUCATION

(M.Sc.) Computer Science – Software Engineering
University of Benin, Edo, NG.
Apr 2019 - Feb 2021

(B.Sc.) Mathematics & Computer Science
Benson Idahosa University, Edo, NG.
Sep 2010 – Jun 2014

PROFESSIONAL EXPERIENCE

Senior Software Engineer **May 2023 – present**
Plural Health (formerly PlateauMed), Lagos, NG.

- Worked on a multi-tenant Electronic Health Record (EHR) solution using Next.js, React Native, and C# ASP.NET.
- Designed cross-platform user interfaces using Expo Router, Reanimated, Mantine UI Hooks, and Storybook.
- Integrated Firebase Cloud Messaging (FCM) to deliver real-time push notifications on mobile and tablet devices.
- Integrated Dexie.js as a client-side IndexedDB wrapper with service workers to enable partial offline support.
- Created RESTful APIs with C# ASP.NET and adopted CQRS architecture pattern to enforce separation of concerns.
- Built and deployed a Python FastAPI web service leveraging OpenAI GPT-4o mini to summarize operational challenges across multiple Primary Health Centers (PHCs), empowering the National Primary Health Care Development Agency (NPHCDA) with faster, data-driven decision making.

Full Stack Engineer **Feb 2020 – Jan 2023**
Buzzbite.io, London, UK (Remote)

- Worked on a Brand-Influencer Marketplace SaaS using React, TanStack React Query, Zustand, and PHP Laravel.
- Designed mobile responsive, role-based dashboard modules using Material UI. Implemented React's composition pattern and atomic design principles to improve code readability, testability with Vitest, and scalability.
- Integrated third-party APIs such as Facebook, Instagram, Twitter, TikTok, Google Analytics, and Paystack Stripe.
- Integrated Pusher.js to enable real-time, instant messaging between Brands and Influencers via WebSockets.
- Created RESTful APIs and rich-text email templates using Laravel. Implemented token-based authentication with Sanctum, and role-based access control (RBAC) using Spatie.

Full Stack Engineer **May 2016 - Dec 2019**
Pear SDC, Edo, NG.

- Worked on Benson Idahosa University's student admission portal using React, Redux Toolkit, and Node.js.
- Designed mobile responsive, role-based dashboard modules using TailwindCSS. Implemented React's composition pattern and atomic design principles to improve code readability, testability with Jest, and scalability.
- Integrated Remita and Interswitch SDKs for secure multi-channel payments, settlements, and internal audits.
- Created RESTful APIs with NestJS and designed rich-text email templates using Handlebars. Implemented Guards and Pipes middleware for authentication and validation. Implemented background jobs for notifications system.

VOLUNTEER EXPERIENCE

Microsoft Azure Developer Community
Oct 2018 – present

Google Student Ambassador (GSA, GDG)
Jul 2013 – Aug 2014
