Senior Software Engineer – Hybrid

PEAR Software Development Company, Edo, NG.   May 2022 – present

Built, tested and deployed Benson Idahosa University's revised student portal with Vue.js (Nuxt) and Laravel. Integrated online payments with Interswitch, Paystack and Flutterwave. Also developed an Internal Request Management app called Fedora, using React Native and Firebase.

ICT Programme Coordinator

D-Peterson Foundation (DPFIIT), Delta, NG.   Feb 2021 – Feb 2022

Designed and developed a student registration and batch screening portal with Google Forms API, a voter's card census database using Microsoft Access, and a web-based CBT application called Exxpo CBT with Vanilla JavaScript and PHP. Also taught computer programming with Python, website design and development using Django, and Data Analytics using Microsoft Excel.

Full Stack Engineer – Hybrid

Retinken Nigeria Limited, Edo, NG.   Dec 2020 – Mar 2022

Designed and developed a database application called ZentryLTE to manage book sales and credit invoices, distributor accounts, and customer accounts.

Senior Facilitator

NIIT Benin Centre, Edo, NG.   Sep 2018 – Jan 2021

Designed and developed an Enterprise Application Software called CARDINAL to manage the organization's core business processes. Also taught software development and testing with Java, JUnit and Servlet respectively, web development with PHP, and Mobile App development using Android Studio.

Systems Integrator (Personal Banking Cloud Division)

AppZone Group Limited, Lagos, NG.   Feb 2016 – Aug 2016

Built, tested and deployed subsystems for the company's proprietary Core Banking Solution called BankOne^{TM}, with C# (.NET Core). Designed mobile app UI/UX components for Providus Bank PLC, using Figma. Also prepared on-boarding training materials for junior technical staff, using Google Classroom.

Junior Facilitator

New Horizons Nigeria, Rivers, NG.   Sep 2015 – Dec 2015

Designed a dashboard application called Joywave to track and visualize students learning progress via preset KPIs. Also taught web design and development using Adobe® software packages such as Dreamweaver, Photoshop and Illustrator respectively.

Full Stack Engineer – Remote

Safeguard Safety & Management Center, Rivers, NG.   Apr 2015 – Jul 2015

Designed and developed an e-learning portal and web-based CBT application to evaluate NYSC members on IQ Test and HSE Examination respectively.

Intern Software Developer

Tamakei Consultants (Taytom Group), Lagos, NG.   Mar 2013 – Sep 2013

Designed and developed a self-service banking solution for Union Bank Nigeria called Dot-UnionBank^{TM}, which enables new and existing customers carry out virtual tasks like account opening, activate internet banking and mobile wallet, apply for ATM cards, find ATM locations via integrated Google Maps, speak with customer care reps via integrated Skype channels, and more. Product launched at Silverbird Galleria, VI, Lagos.
